the Glee Club was \$2,30.90, and from the '94 Prom. \$1,500.

Notwithstanding the excellent financial showing for the Football Association, it can be authoritatively stated that a large number of the leading professors of Yale are opposed to football as at present played. They consider it altogether too rough a game for the students to induge in. There are a few of the professors who favor continuing the game as it is at present played, but the greater proportion favor either abolishing it altogether or providing that it shall be played with less of the slugging and biting of the prize ring.

All who have had the good fortune to know the president and those who have seen the prosperity which the college has enjoyed during his presidency must feel that in the resignation of its first president the college will suffer a great loss. He will, however, still occupy the chair of ethics. The trustees' choice for the new president is a peculiarly fitting one, falling as it does upon the dean of the faculty. Miss M. Carey Thomas. It was received with great pleasure by the students.

Fresident Shafer's annual report, recently issued, contains many interesting facts and statistics in regard to the college.

Of particular interest and significance are the comparative tables placed at the end of the report, showing the results of physical training in the cases of certain students. The measurements were taken and arranged by Miss M. Anna Wood, the physical examiner of the college, and include records of class crows receiving training in the gymnasium and on the lake, and of twenty students receiving no training. The gain in strength made by those students under training is so appreciable as to give particular emphasis to the necessity and vaine of physical training as a part of the college curriculum. The measurements were made in November, 1892, and May, 1893; and in the case of the students who received training there is a mean gain in strength, depth.

Although the prospects for a good team next year are promising, it is recognized that to secure best results Tufts must be in a league. Dartmouth has already objected to allowing Tufts to be admitted to the league with Amherst and Williams. If entrance there is impossible, a league is talked of between Brown, Wesleyan and Tufts. The Alumni Field will be ready for use by the next football season.

Chicago, Nov. 26.—It is probable the Republican managers will settle down steadily to work this week. They did not do much during the last week, and the Democrats, though torn up by factions have made much more progress in the campaign pre-liminaries. Though nothing has been definitely settled as yet, it is probable the special day of registration will stand without formal protest on the part of the Republican Committee. There was a full meeting of the City Council Committee yesterday. It was agreed to make a thorough canvas terday. It was agreed to make a thorough canvase of every precinct, to ascertain who are not registers, but entitled to register; who are on the registers that should not be there; also to ascertain the choice of the voters for Mayor. The canvassing books, which it took a week to prepare, were handed out. The canvass will begin tomorrow. Notwithstanding some drawbacas, the prospects for Swift's election are bright.

The revelations made at the City Hall during the last two days cannot fail to have a demoralizing effect on the Democrats. One of the leaders has been charged with grave offences, such as stuffing the payrolis and appointing utterly incompetent men to inspect public works. The charge is made by a fellow-Democrat, who has held the office of Election Commissioner.

UNION COUNTY DEMOCRATS IN A BAD WAY.

Smarting under the sound thrashing administered to them by the Republicans and Citizens' League on Election Day, the Union County Democracy, in the hope of being able to retrieve its fallen fort-unes, made an effort on Friday night to reorunes, made an effort on Friday night to reorganize the party. Letters were quietly sent to the leading Democrats of the county to attend a conference to be held at the Sheridan House Saturday to discuss the subject of reorganization and also to take measures to establish a Democratic newspaper to help the scheme along. To the utter disgust of the promoters of the undertaking only a small number of the leaders responded to the call, and the whole thing proved a wretched fizzle. Neither ex-Governor Green, Senator Marsh, Judge McCormick, nor any of the "big guns," except Congressman Dunn, appeared at the conference and nothing could be done. The Democrats in Union are in a bad way and the warring factions into which they are split up show no inclination of burying the hatchet.
